About the ranking

The rankings are based on each club's results in European competition (in the UEFA Champions League, UEFA Europa League and UEFA Conference League). The places allocated to each country are based on performance over the previous five seasons. [Learn more](#)

*Due to the suspension of all Russian national teams and clubs from UEFA competitions until further notice, as decided by the UEFA Executive Committee on 28 February 2022, having as a consequence that no Russian clubs are participating in the current 2025/26 UEFA club competitions season, Russia will be assigned with the lowest amount of coefficient points they have earned over the last five seasons, i.e. 4.333 points for the men's association club coefficient and 1.750 for the women's association club coefficient upon completion of the 2025/26 season.
